

# City of San Antonio Animal Care Services Community Cat Program

4710 State Highway 151  
San Antonio, TX 78227

---

## Seeing Stray Cats?

Community cats are the un-owned stray or feral cats who live outdoors in our neighborhoods. They can be humanely trapped by citizens and ACS will sterilize and ear tip them (universal symbol for TNR). They can then be safely returned to the community 24 hours after surgery.

---

## To Be Eligible for FREE Stray Cat Sterilization:

You must be a resident of the City of San Antonio to utilize the  
Community Cat Program

---

## Cats must meet the following criteria to be eligible for TNR:

- The cat lives strictly outside
  - The cat has no owner (No collar, tags and/or microchip)
  - The cat appears to be healthy and is of healthy weight
  - The cat is at least 2lbs and roughly at least 10 weeks of age
  - All cats must be in humane cat traps
  - All cats must be returned to their original colony after 24-hour recovery. (Dumping cats is illegal).
- 

To schedule an appointment for surgeries please go to :
